

# USAID GLOBAL HEALTH SUPPLY CHAIN PROGRAM

## TECHNICAL ASSISTANCE, NATIONAL SUPPLY CHAIN ASSESSMENT TASK ORDER

### NSCA 2.0.2 Toolkit Update

The NSCA toolkit has been updated to address minor bugs and enhance data quality for certain questions in the CMM questionnaire. The NSCA Toolkit is also available in French. You can download the full NSCA 2.0.2 toolkit at:

#### [NSCA Toolkit](#)

If you prefer to download the individual files, the following files are affected by the update:

- CMM Questionnaire for All Levels
- CMM SurveyCTO Code
- Implementation Guide
- Sampling Template
- Instructions for Using the Sample Template
- CMM Survey Analysis Template
- KPI Non-Central Analysis Template

#### **Updates in the Toolkit:**

- Guidance for Implementers on use of SurveyCTO for NSCA implementations
- Clarified language for anonymity of respondents and aggregation of reported results
- Sampling template enhanced to include data validation tab to streamline overall sampling process ( with updated guidance in instruction manual)
- Minor bug fixes on CMM analysis template and KPI non-central analysis template
- KPI Non-central Analysis template back-end calculations updated to address minor bug in select KPI calculations
